

Video On Demand Set Top Box

Design Note #22

Orchid Technologies delivers On-Demand streaming multi-media content.

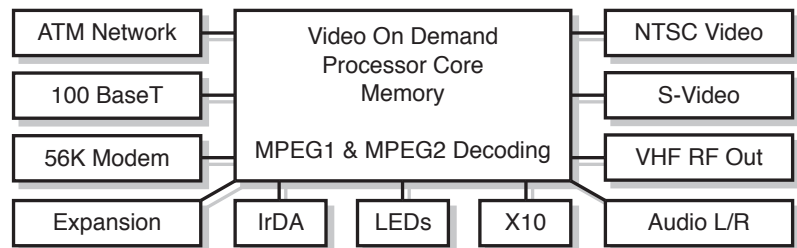

The multi-billion dollar set-top-box market requires an agile hardware platform that can answer site-specific installation needs while providing unmatched reliability, and entertainment value. Orchid Technologies designed a feature-packed set top box, raising the bar for features and performance.

Audio and Video Velvet

Orchid Technologies enhanced-output stages result in a distinctly superior end-user experience. Seamless and smooth, Orchid's enhanced audio and video output technologies wraps the viewer into a world of fantasy and imagination.

Enhanced Connectivity

Designed for both today and tomorrow's system installations, Orchid's set top box provides a veritable Swiss army knife of features.

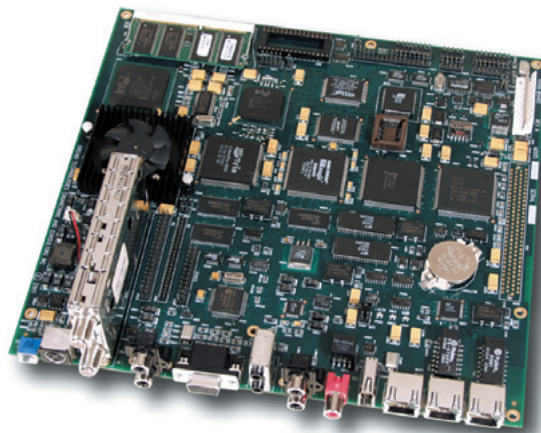

Demanding Reliability

With nationwide installations, set top box reliability and serviceability are of paramount concern. Remote Service-Check features lower maintenance personnel needs while enhancing long term performance.

On-Demand Engineering Talent

Orchid Technologies can tackle your consumer-video-electronics needs. Orchid Technologies' experienced design engineering team can be On-Demand for you too.
